

Protests Voiced on P.G.&E. Proposal to Erect Gas Tank Here

That the many residents of Albany and neighboring communities are opposed to the Pacific Gas and Electric Company's proposal to erect a huge gas storage tank west of Albany Hill is evident Monday night when approximately 150 persons attended the City Council Chambers for an open discussion with officials of P.G.&E., the Planning Commission and the City Council.

Commission Chairman E. C. opened the discussion with a brief outline of recent meetings with P.G.&E. had made inquiries as to possible rezoning of a site in Albany for the tank and told the city to subdivide the land for residential development. He stated that there are 800 lots on the hill that can be made available for homes.

Walter Howell, Berkeley district attorney for P.G.&E. presented his company's views on the matter. He stated the Albany site was most desirable since it is near a 20-inch gas line from the Kettleman Hills; it offers a good rock foundation for the 5000-ton tank and the hill would largely shield its 379 feet height.

First resident to protest the proposal was Duane Cleland, 707 Pierce. He declared, "We have a nice, little town. We don't want to be big. We all know the expression 'down by the gasworks.' Such a tank would lead to a slum area."

W. A. Pratt, 720 Washington St. feared the tank might be a menace to the Vista School now being built on the east side of the hill. "A good ball player could stop the tank and throw a ball onto the roof of the school. Our children might be injured in case of an explosion or fire."

Francis Healey of Diamond, a resident of Kensington, spoke for his neighbors and said they feel the tank will cut off the view from their homes and would tower above the hill. Others speaking in opposition were A. S. Klein, 746 Gateview; C. Lyon, 709 Pierce St.; Cecil N. Jones, attorney with offices at 75 Solano Ave.; Lester G. French, 1010 St. and Mrs. Jewell DuPont, 710 Solano Ave.

John Buckwalter, 755 Spokane Ave. favored placing the tank in Albany. He said the city needs the estimated \$35,000 in annual tax revenue which the project may bring. Two city officials placed themselves in opposition. Planning Commissioner William Garren stated that would devalue the property. (Continued on page two)

ALBANY ROTARIANS TO PURCHASE ROBES FOR HIGH SCHOOL CHOIR

Robes befitting their accomplishments was the thought behind the decision of the Albany Rotary Club to buy robes for the Albany High School Choir. MORGAN'S MEANDERINGS

By M. S. T.

We'll betcha that right now Dr. Robert Taylor is still pondering over who sent him the singing telegram for his birthday Wednesday. His only clue is that it was a mixed chorus of male and female voices.

Since split shifts makes it impossible for the laddies in the Fire Department to field a team in the City Softball League, this year, they have formed a "rugged aggregation of dauntless fighters" to do battle with hook and ladder teams from neighboring cities. They meet a team from the Berkeley smoke-eaters on May 8 and intend to show that cooling hot fires is not the only task at which they excel.

Among the multitude of things which occupy the off-duty time of Sigrid Oakley, police matron, is a bit of green thumbing on a sunny day. Tuesday she had no sooner finished planting a choice lot of seeds than a California thrush called his mate from nearby and the two went to work on Sigrid's labor of love.

After a serious operation and three weeks in the Albany Hospital, (Continued on page two)

At a recent Rotary meeting members of the Club had a preview of the robes planned for the choir. They are of deep maroon poplin with a white satin stole.

Albany may well be proud of the record of our High School Choir, for it is known as one of the outstanding musical organizations in the Bay Area. Under the direction of Stephen Lehner, the choir has sung in over 50 major programs in the past two years. They received a "first rating" for a recent concert broadcast over station KLV in Oakland and were highly praised for their performance at the national convention of the Daughters of the American Revolution in San Francisco. Singing under the sponsorship of the Albany Rotary Club, they were applauded at the district convention of the Rotary International held in Berkeley last year. Their outstanding work at this convention so impressed local Rotarians that they pledged themselves to match the appearance of the group with the quality of their performance.

Originally organized in 1939 with eight girls and four boys, the choir is now expanded to a membership of over one hundred. At present, one student of every seven at Albany High School is enrolled in the group. Since its organization over 2000 high school students have sung in the choir under Lehner's direction. The choir is a member of the East Bay A Cappella Choir Festival Association.

In addition to his musical work at the high school, Lehner is well known as a concert singer, specializing in Indian music. He appeared recently on a Standard School Hour broadcast and was formerly with the San Francisco Chamber Opera Company. He is at present choir director of the Northbrae Community Church.

Providing the robes has been placed under the direction of the Rotary Club's Youth Service Chairman, Fred Granholt, and the Community Service Chairman Ted Williams. Others assisting in the campaign are Joe Villa, Al Hackim, Albert Galigher, George Bernard and William Simmons.

Stores to Remain Open 'Til Nine on Friday

For the convenience of their customers tired of the rush of day-time shopping a group of progressive Albany merchants have adopted a policy of "open 'til nine" one night a week. Friday has been chosen as the day when certain stores on San Pablo and Solano Avenues will remain open until nine to afford leisurely shopping for local residents.

A complete list of those now participating in this program will be found on page seven of this issue.

Going Away?

Albany Police Chief Stanley Williams this week urged all persons planning to go out of the city for a vacation to leave their name, home address and where they may be located while away from Albany with the Police Department. "This will help us to keep a check on unoccupied houses," the Chief said, "and to contact homeowners in case of an emergency."

Jean Reinecke Heywood, daughter of Mr. and Mrs. Hugh L. Reinecke, 733 Kains Avenue, Albany, has been selected as one of the semi-finalists for the 1948 Atwater Kent Auditions.

The annual vocal competition, in which prizes totalling \$15,000.00 will be distributed among ten singers, has been underway since March 1. Approximately 3000 young aspirants requested applications for the contest from all sections of the nation.

Mrs. Heywood, who resides at 922 Clark Place, El Cerrito, will now move into the semi-final auditions, which will be held in Los Angeles during the latter part of this month and early in May.

Entries in the 1948 Auditions showed an increase of nearly 50% over 1947, officials disclosed, and over 100 various professions and occupations were listed by the singers.

Sponsored by the Atwater Kent Foundation, widely known philanthropic organization, the Auditions are designed to discover, encourage, and reward talented young singers between the ages of 18 to 29. There are no restrictions as to race, place of birth, and amount of musical training.

Last year's first-prize winners were Ligia Armijo of Costa Rica, a mother of three children, and Theodor Uppman, a student at Palo Alto, California.

New Speed Limit on
Bay Bridge Brings
Many Citations

Strict enforcement of the new
45-mile-an-hour speed limit on the
upper deck of the San Francisco-
Oakland Bay Bridge resulted in
130 citations for speeding being
issued to motorists for the week
ended April 21, it was announced
today by the bridge office of the
California Highway Patrol.

The limit was increased from 35
miles an hour April 6, when new
signs were posted, and 126 speed-
ing citations were issued during the
first week of enforcement.

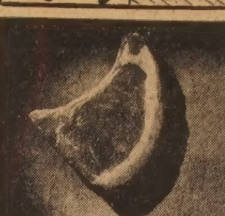

With adoption of the higher limit
to facilitate orderly movement
of traffic, the Highway Patrol con-
sidered any speed in excess of 45
miles an hour on the upper deck
of the bridge neither reasonable
nor safe. Highway patrolmen are
under orders to issue citations for
all speed in excess of the posted
45-mile limit. The limit on the lower
deck remains at 35 miles an
hour.

In addition to the speeding cita-
tions, nine arrests were made for
drunken driving on the bridge dur-
ing the week reported.

A. This cut is taken from the pork loin. It contains only the eye muscle of the meat (as compared to the loin chop which contains the tenderloin muscle as well). If cut thick, each chop will contain a rib bone; if thin, every other chop will have a rib bone.

Q. How should this cut be prepared?
A. Like all other cuts of pork except roast, the rib chop is braised, or cooked with moisture. Because pork requires a longer cooking time than other meats to be completely cooked, the presence of moisture prevents a dryness that otherwise might develop. Not only is thorough cooking important, but a richly developed brown is also desirable. To this end, brown the chops well before cooking in a small amount of lard (if desired they may first be dipped in flour as an egg-and-crumbs coating). After the meat is browned, add a small amount of liquid, then cover and cook slowly until tender, usually about 45 to 60 minutes, depending on the thickness.

Q. What is the name of this cut of meat?

A. This is a veal kidney chop.

Q. Where does the cut come from and how is it identified?
A. The veal kidney chop is cut from the rib end of loin, clear through the flank section. It also contains a cross-section of the kidney, on a cushion of fat. The flank wraps around this section. The veal kidney chop is one of the larger of the veal chops.

Q. How should this cut be prepared?
A. The veal kidney chop should be braised as should all veal chops or steaks (veal, since it comes from a young animal, has little fat to aid in making it tender). Brown the meat first, slowly, in a small amount of hot fat (the chops may be dipped first in an egg-and-crumbs mixture then in sifted cracker or bread crumbs, to protect the meat from direct heat and also to aid in browning). When the chops are nicely browned, add a small amount of liquid (water, milk, tomato juice, sour cream, fruit juices) and cook slowly, covered, until tender, usually about 45 to 60 minutes.

Egg whites reach definite stages during beating. In order to have satisfactory results in recipes calling for beaten egg whites, it is important that you know the correct stage for each use.

Here is an outline for checking your egg-beating technique.

Foamy—The egg whites are beaten until white and frothy with large bubbles. This stage is used for clarifying soups, coating croquettes, and combining with liquid for custards. It also is the stage when the first of the sugar is added in making meringues.

Stiff Foam—The beaten whites have small air cells and look shiny and moist. The mixture flows slowly when the bowl is tipped and liquid separates from the foam on standing. When the beater is removed, rounded peaks form. This stage is right for souffles, fluffy omelets, sponge cakes and soft meringues for pies.

Stiff—Egg whites beaten to the stiff stage are very white and have very small air cells. The mixture is glossy and moist and forms definite points when the beater is removed. Cooked frostings, candies and hard meringues require stiff beaten whites.

Dry—This stage is too stiff for most purposes because the egg whites will no longer blend with other ingredients. The mixture is dull and breaks when the beater is lifted. "Fluffed Eggs" is the only recipe which requires dry egg whites.

Eggs separate more easily when cold, but for best beating, egg whites should be at room temperature.

Night School Offers Varied Craft Classes

A large variety of craft classes is still open for further enrollment of adults at the Albany Evening High School, 603 Key Route Blvd. These include both day and evening classes. All of these courses are held at the Albany High School Building.

On Wednesday and Friday mornings from 9:30 to 12:00 pottery and mold making is taught by Mrs. Rubenstein, a well known commercial potter.

The making of braided rugs from discarded clothing is taught on Tuesday and Thursday evenings from 7:00 to 9:30 by Mrs. Mary Watson. The beautiful rugs that have been produced by the students in this class are evidence of the opportunity offered those enrolling to make rugs both of beauty and of value.

Two Wednesday classes, one from 9 to 12 and a second from 1 to 4, embraces instruction in the making of crafts of various kinds for the home. Miss J. Walton, the teacher, has people in her class who are making lamp shades; others are producing decorated bags and scarfs; some are devoting their time to making picture frames and constructing novelty boxes.

A class in arts and crafts, under Miss Gladys Collar, is conducted each Monday and Wednesday evening from 7:30 to 9:30. This course is quite diversified in that it offers opportunity for the study of pottery and mold making, drawing, leather work, silk screen, block printing, and other types of arts and crafts. Those enrolled may devote their time to a study of one or more of these subjects.

Instruction in millinery and the making of millinery accessories is offered each Wednesday night from 7:00 to 10:00 under Miss Elizabeth Darling. An analysis of types of styles, the proper working of various hat materials, the construction of bags and other accessories, and a detailed study of the actual process of making hats are all part of this course.

Here's why we say
WOMEN CAN GO PLACES IN THIS BUSINESS

2. She was promoted to supervisor after a few years. Training new girls was an important part of the job...for Pacific Telephone was growing. She enjoyed vacations every year...with pay, of course. And she joined in many local telephone activities. Found telephone people friendly and sociable...on or off the job.

4. Telephone jobs must be good jobs to attract the capable people needed to furnish service. Good pay, steady work and an employee benefit plan give a strong sense of security. Comfortable surroundings, vacations and friendly fellow workers help make work pleasant.

1. This is a story of a typical Pacific Telephone "career girl." She started as an operator back in the thirties...a good job then, even better now. Today most new operators just out of high school average better than \$35 a week when they start handling calls and many experienced operators earn \$50 a week.

3. She's a chief operator now supervising 70 women...her responsibilities and experience help determine her salary of \$4,500 a year. Many "chiefs" earn more. Two-thirds of our people are women—hundreds have management jobs—five are assistant vice-presidents. Yes, women can go places in this business.

Homemade bakeries and handmade needlework will be sold at the festival. Refreshments and dinner will be served from 5 to 10 p.m. Proceeds from the event will go into the church building fund. The public is invited.

The Sewing Circle met at the home of Mrs. Mae Anderson, 1557 Visalia for a 1 o'clock dessert luncheon on April 22. Grace Lutheran Church Plans Anniversary Service

Observing the tenth anniversary of the dedication of its church-parish hall, a special vesper service will be held at Grace Lutheran Church, Santa Fe Ave. at Ward, El Cerrito, Sunday, May 2, at 5 p.m. The Rev. Arnold Levenhagen, pastor of Zion Lutheran Church in Oakland, will be the guest speaker.

REV. O. R. JANKE

er, using as his topic, "The Need of the Church." The Rev. O. R. Janke, pastor, will serve as liturgist.

Festival music for this service will include a cantata solo, "Bless This House," by Joy Lindner, and the anthem, "It Is a Good Thing to Give Thanks," by the mixed quartet. The service will be followed by a pot-luck supper and fellowship.

Established as a mission in February, 1931, Grace Lutheran Church was organized as a congregation on April 15, 1935, and three years later on March 27, 1938, erected and dedicated the present church-parish hall, the first unit of the proposed church plant. During these ten years the membership of the congregation has tripled, and the Sunday school has maintained an average enrollment of 165 pupils. The present pastor, the Rev. Orwin R. Janke, has served the congregation since May, 1934.

At present a planning committee is studying plans for the erection of the main church edifice with a seating capacity of approximately 300 at the cost of \$80,000. The construction date has not as yet been set.

Northbrae Community Church opens a week's campaign next Sunday with a goal of \$100,000 in 30 months for the erection of a new church building, unit to the left, shown above. The new church will be built on the site of the present building which will be moved north on line with the new edifice. The design will follow the residential character of the old church but will be more church-like in form. The commanding tower in the center will contain a chapel accessible without going through the other buildings. Rev. Laurence L. Cross, mayor of Berkeley, and Dr. Corwin H. Olds, are ministers.

NEAT TRICK! — It takes a steady hand and good control to bal-
ance five cups, but Bill Herson, emcee of NBC's "Coffee With Con-
gress," has had three years of practice. During that time he has in-
terviewed over 100 congressmen over the coffee cups in their homes.

Homemaking
Today

Household linens are an impor-
tant and expensive item and should
be chosen with thought and care.
Whether you are buying them to
stock your home supply or for gifts,
you'll want to select durable linens
of good quality.

Here are some suggestions which
may help you select wisely from the
bewildering variety now available.

BATH TOWELS
Before buying bath towels, con-
sult the members of your family for
their preferences as to size and tex-
ture. A good towel is absorbent and
has a deep, soft, closely woven pile.
The underweave should be firm and
close. Give it the "pin-hole" test by
holding it to the light. A good
weave allows only tiny, even specks
of light to show through.

Check for strong selvages. Re-
liable manufacturers place extra
yarns there to make them dura-
ble. Avoid towels which are
hemmed along one side because
they will wear or ravel easily. The
hems should be firmly turned un-
der, sewed with even stitches,
and well tacked at each end.

Soft colors are decorative in the
bathroom, but your preference may
be for plain white towels.

SHEETS
For a sheet that is strong and
durable, a heavy muslin is a good
choice because it will stand hard
wear. If appearance and "feel" are
more important, the fineness and
softness of percale will make it
your choice.

A good sheet has a firm weave
and is practically free from sizing.

use Color
in that ATTIC!

ATTIC rooms become a
useful part of your home if
they are decorated in taste-
ful colors. Color is impor-
tant in a well-groomed
attic, especially if it is to be
used as a sewing, game or
bedroom.

SEWING ROOMS should have plenty of light. Soft,
light tints will reflect light and make sewing easier on
the seamstress' eyes. They'll also brighten up your
attic.

BEDROOMS can be
charmingly decorated.
Soft, cool colors tend
to induce sleep.

GAME ROOMS need stimu-
lating colors to keep the
players on their toes. Let
us suggest suitable colors.
